Federal grant sought to finance project

Third fire station approved

Upland City Council Monday night approved construction of a third fire station and directed the city staff to investigate the possibility of a federal grant to finance the project. The majority of the council, noting the eventual need for a permanent living structure, approved seeking funds under the Public Works Bill for construction of both an engine room and dormitory.

Fire Department officials had originally proposed building a new engine room at a cost of $30,000-$40,000 and remodeling an existing house to provide living quarters for fire employes. Remodeling costs are estimated at $5,000.

Councilman Hal Bailin opposed the use of federal funds for a new living structure and commented, "It leaves me kind of cold to go full bore if 'Uncle Sugar' pays for it and be more prudent if we pay for it. Our job is to do what we need to do in the most cost effective way ... and save some money whether federal or ours."

The remainder of the council disputed Bailin's contention that a remodeled house would be as good as a new facility and stated a new building would be needed eventually.

Acquiring a federal grant would enable the city to "build a completely acceptable whole unit now" rather than leaving living quarters until later, commented Councilwoman Ina Petokas.

Mayor pro tem John McCarthy said Upland would probably qualify for a 100 per cent public works grant since the majority of the $2 billion available will be designated for cities with unemployment rates higher than the national average of 7.3 per cent. Unemployment rates in the West End approach 9-11 per cent, he said.

Information on qualifying for the grants and conditions attached to use of the funds will not be available until early September, according to City Manager Lee Travers who said the staff would investigate the possibility of federal funding.

The new station, to be located northeast of Benson Avenue and 13th Street, would provide fire protection to the residential section presently being developed and would allow the department to provide adequate coverage of the entire city, according to Fire Chief Leon Lamphear.

In addition, he said, the third station would allow Upland to establish full mutual aid with Montclair and Ontario so the closest engine would be dispatched to a fire regardless of city boundaries.

Operation of the station would cost approximately $90,000 during the first half of 1977 and would be funded through revenue-sharing funds and funds from increased assessed valuation higher than anticipated by the city, according to Travers.

If development in the northwest section continues at its present rate, within six years the increased assessed valuation on homes served by the station should be enough to meet all operating costs, he said.

In other actions Monday night the council:

— Approved Master-Bilt Chain Link Fence Co of Bellflower a $4,379 contract to install a six-foot fence to protect San Antonio Park Reservoir from motorcyclists and vehicles driving on top of the underground facility.

The fence will be extended higher when tennis courts are established on the reservoir top.

— Approved a rate hike for Paul's Yellow Cab Co. Inc. which would increase the rate from 20 cents for each additional one-fourth mile to 20 cents for each additional one-fifth mile, effective Sept. 1. The increase will provide a 7.7 per cent increase to "offset costs and restore profit" and will allow employes a 10.8 per cent increase to offset the cost of living, according to Gene R. Stalians, president of the company.

— Indicated support for a three-year special assessment from cities to fund a new building for the California League of Cities. Upland's share would be $3,870.

Chaffey College now accepting applications

Chaffey College is accepting applications from new or former students for the fall quarter Sept. 13-Dec. 7 with registration set for Sept. 1-2 and 7-8.

New or former students are required to file an application for admission and obtain permit-to-register cards at the admissions office prior to the registration dates.

The college has arranged for students in this category to start the admissions procedure early in order to allow them maximum options in class scheduling.

The permit to register card is issued to new or former students, who are planning to take 12 or more study units when they have filed an application for admission in person and had transcripts of records sent to Chaffey College from last high school attended and from all colleges attended.

For more information on enrollment procedures call the admissions office, 987-1737, ext. 260.

Water use tops 510 million gals.

Upland Water Department delivered more than 510 million gallons of water in June, the largest delivery of water ever recorded in the city.

The June water total is enough to cover the area between Euclid and Mountain avenues and Foothill Boulevard to 22nd Street with one foot of water, according to a department report.

The 510 million gallons equals 449 gallons per person per day and is enough to fill Upland's new reservoir 51 times.

Representation of women biggest issue

Chris McVittie: convention delegate

By Lynne Locke

The biggest issue at the Democratic National Convention in New York City was representation of women at the 1980 convention, according to Upalnder Chris McVittie, who was one of three delegates from San Gabriel - Pomona Valley.

Mrs. McVittie said she "personally supports" the compromise which indicated the importance of women's participation rather than setting quota system requiring that 50 per cent of delegates in 1980 be women.

"I don't like arbitrary quotas. As long as the Democratic Party is aware women want to be involved, that will do it," commented Mrs. McVittie who feels she was chosen as a delegate partly because "they needed women."

She said her appointment was practically automatic because she coordinated Brown's presidential caucus in the West End and added, "I found it a very, very exciting experience to be there when they were choosing the presidential candidate especially since I wasn't born in this country." Mrs. McVittie was born in Argentina and came to the United States in 1963.

Most of the issues, including the Democratic Party nominee, were really decided before the convention, siad Mrs. McVittie who was a member of the delegation supporting California Governor "Jerry" Brown for the presidential nomination.

As one of several Brown delegation whips, her job was to convince 20-25 Jimmy Carter delegates to vote for Brown. Since it was already "all over at that point," she said, she imply introduced herself to the Carter delegates.

"They were very nice, but I didn't try to push anything. If Brown had had a chance, I would really have talked," she said.

Brown delegates didn't receive any negative reaction, probably "because we were not really any threat," Mrs. McVittie said and noted former Governor Pat Brown considered his son as a winner since he had gained valuable national exposure and done well in the primaries he entered.

"There's plenty of time in the future," she quoted the elder Brown as saying.

The convention itself was "like a love-in" since "no one wanted to hurt others' feelings or cause problems," said Mrs. McVittie.

Carter made a big impression when he visited the California delegation, she said noting she had missed his visit. But Mrs. McVittie has bought several books about Carter and plans to campaign for him.

Mrs. McVittie enjoyed campainging for Brown far more than she does for her husband, Bill, who is running for re-election to the 65th District Assembly seat.

In campaigning for Brown she "didn't get that personally involved and could relax more and enjoy it," said Mrs. McVittie, noting, "You can't have a private life in a campaign."

McVittie earlier had commented it was a different — but healthy — experience to watch his wife in a political role at the convention, and added, "It's good to reverse roles once in a while."

In her usual role as legislator's wife, Mrs. McVittie "travels a lot, works at the (district) office, does campaign work, attends lots of meetings, and meets all kinds of people."

"It's hard and on the other hand exciting," she said and added her favorite part is the process of formulating new legislation. Mrs. McVittie studied law for several years in Argentina and the United States and then assisted her husband in his law practice.

The main problem with the political life is the amount of traveling, which can sometimes become tiresome, she said and commented, "Right now the airport is our second home."

The constant traveling between Sacramento and the district makes it difficult to follow her own interests she said. "That way it is hard. I don't have that many days I can decide what I want to do."

With the interview over, Mrs. McVittie went back to packing for a quick trip to Georgia where her husband is participating in the National Conference of Commissioners on Uniform State Laws.

Ex-Highlanders on 'city' eleven

When seamen got the chiefs to work, the tide has really turned. Well, in the case of Mike Rees, he almost seemed to be doing that as he got "City Slicker" receiver coach Al Blair to show him, not tell him.

Three ex-Upland High School football standouts, and four who were graduated from Fontana High School, head the West End contingent nominated to the High Desert Football Classic.

The first-ever contest will be played Saturday, Aug. 7, at Moore Stadium in Victorville. It will pit the "City Slickers" against the "Country Boys."

John Tyree, Fontana High School football boss, will head the Slickers. Ken Garver of Victor Valley College will be in charge of the Country Boys.

Tyree has been holding practices this week at Fontana, trying to install the wishbone offense he has used so well at Fohi and Imperial High School, where he won the Class A title in 1973.

Bill Christopher, an ex-Tyree aide who is now head coach at Eisenhower High School, heads the defense.

In addition to Fohi quarterback Lester Waleszonia, Tyree is working with Bob Dalquest of Upland and Tracy Cavender of Notre Vista. Both Waleszonia and Cavender ran the wishbone during the regular season, while Dalquest has some experience with the triple option.

"Gary Carr will probably start at fullback for us," Tyree said of the six-foot, 195 pound running back from Upland. "He'll certainly help our running game."

Rueben Henderson of Fohi bowed out of the contest due to a leg injury and has been replaced by Eric Davis of San Gorgonio. Rodney Soward of San Bernardino and Mike Rees of Upland are other top running backs.

"Rees can certainly do everything. He'll probably see action as both a halfback and a split end for us," Tyree pointed out.

The addition of all-CIF selection John White of Redlands bolstered the offensive front line. Two other Terriers, Ed Vilapando and Randy Williams, strengthened the defense.

"On offense our strong suite is the offensive line," Tyree said. Fohi's Ron Davis is expected to be a starter on that unit.

"Our secondary will be very strong on defense," Tyree continued. "We have excellent linebackers, and outstanding players on the line."

Dennis Johnston, Fohi's all-CIF linebacker, and Mike Dragoon, the nose guard, are other Steelers on the squad.

Minicourses put school in summer

For the second year, the staff and faculty of Valencia elementary school has offered its "minicourse" program for summer school to the children of Upland.

Planning begins in March on the twenty-eight areas of instruction to be offered pupils from post-kindergarten through sixth grade.

At the primary level, a self-contained program is available to children below the third grade level, stressing beginning and basic reading skills, listening and perceptual skills, motor development, writing and math. Experience in music, art and creative writing is also provided.

For children in the intermediate grades, twenty-six minicourses are available.

To complete a full course of study, four hours per day for the five-week session, the student is required to register for a minimum of eight courses.

Courses emphasizing basic academic skills for the most part last the full five weeks and are usually in session for an hour each day. Some of the courses in the above category are typing, German, Spanish, math, science and drama.

Juniors map fall fashion show

Plans for the Fall Fashion Show by the Montclair-Ontario Junior Women's Club were made at a recent meeting held at the home of Mrs. Elvin Yoakum.

The show is planned for Oct. 30.

Plans also were made to help the Family Practic Clinic with its July open house. Members provided cookies and helped as hostesses. Monthly birthday cakes are donated to the patients of Montclair Manor Convelescant Hospital.

The club is collecting money-off coupons for, Project Concern in Tijuana, Mexico, and toys for Santa Claus, Inc. The members also are saving newspapers for federation projects. Anyone wishing the papers picked up may call Mrs. Yoakum at 642-7877.

A dinner honoring the members of Montclair-Vista Woman's Club was held recently at the home of Mrs. Larry Diess. Mrs. Robert Paul, president of the guest club, Mrs. Robert Carroll, club coordinator, and Mrs. Ed Kusiak, associate coordinator, were among those attending.

Membership into the Juniors is open to any women who wish to serve in the community and meet new friends. The club meets regularly on the first Wednesday of each month at the Santa Fe Federal Savings' Community Room in Ontario.

Woodlane Apartments in Upland

Solar panels to heat water

Fifty-two solar collector panels were installed Tuesday on the roof of the Woodlane Apartments in Upland.

The panels are the final components of a Solar Assisted Gas Energy (SAGE) water heating system that by early August will be providing domestic hot water to 40 apartments.

The Upland SAGE installation is part of a three-year solar research project being conducted jointly by Southern California Gas Co., the federal Energy Research and Development Administration, the National Science Foundation and the Federal Energy Administration.

SAGE researchers are seeking to develop and perfect an economical solar water heating system for multifamily residences. They are also investigating the business opportunities for SAGE systems, including how residential developers can be encouraged to adapt these systems to their projects.

Last summer a similar SAGE system was connected to the central water heating system of an existing apartment building in Orange County. Unlike that installation, the Upland system was integrated into the apartments while they were still being built.

Each collector panel at Upland is a three- by six-foot aluminum tray — six inches deep — covered with a single pane of glass. Beneath the glass is a steel absorber plate to which has been bonded a system of copper tube waterways. The plate has a black chrome coating which improves its ability to absorb the sun's energy.

Fire district changes meeting time, place

The meeting time and place for the Foothill Fire Protection District has been changed to the second Tuesday of each month at 7:30 p.m. in the County Service Area 50 building, 9161 Base Line Road, Cucamonga.

Property tax forms sent to aid seniors

More than 300,000 senior citizens' property tax assistance claim forms for 1976 have been recently mailed, according to state Sen. Ruben Ayala, D-32nd Dist.

"Forms are being sent directly to Californians over 62 years of age who received property tax assistance payments last year and to individuals who already have requested claim forms," Ayala said.

Assistance payments last year totaled almost $51 million, an average of $169 per claimant, according to francise tax board records.

To qualify, individuals must be California residents over 62 years old on Jan., 1, 1976; must own and occupy their homes from July 1, 1975, through June 30, 1976, and must have less than $10,000 household income in 1975.

The filing period for assistance claims is May 17 through Aug. 31.

Two significant changes were made in the law during the 1975-76 legislative session. One redefines household to include all persons who reside in the claimant's home, except minors, qualified students and bonafide renters. The other redefines gross household income to allow deductions for cash business expenditures which are necessary to realize income.

These changes are explained in detail in the instructions. Additional information and assistance are available by writing to Senior Citizens Property Tax Assistance, P.O. Box 1588, Sacramento, Calif. 95807.

Cub scout awards

Cub Scout Pack 614 ended its regular year by awarding the arrow of light, the highest award in cub scouting, to webelo scouts John Trentz, Keith Gilbert and Kevin Gilbert. John Trentz also earned his bear badge with a gold and two silver arrow points.

Two law students to get $1,000

Two scholarships of $1,000 each will be awarded to law students this summer by the Lawyers Wives of San Bernardino County according to Mrs. Douglas Welebir, president.

She said the grants are available to second and third year students who are residents of San Bernardino County and are attending accredited law schools.

Letters of application and transcripts of law school and undergraduate work should be filed at the San Bernardino County Bar Association office by this Saturday.

Candidates will be interviewed during late summer by a joint committee.

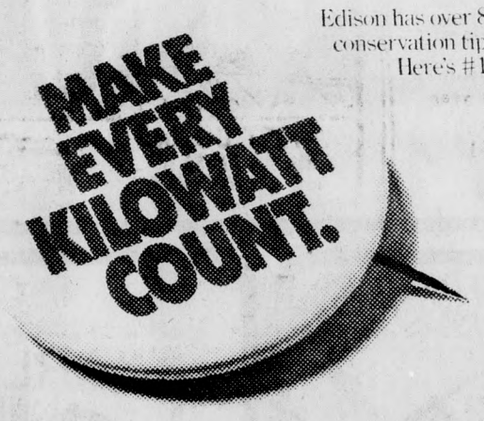
Edison has over 80 conservation tips. Here's #19.



CUT YOUR COOLING COST UP TO 40%.

Insulate your attic.

If your attic isn't properly insulated, you could be wasting money. Lots of money. Why? Because on hot days your attic is a storehouse of heat. This heat passes through your ceiling and into your rooms. Result: your air conditioning has to work longer and harder. And you end up paying the bill.

By insulating, or increasing the amount of insulation now in your attic, you may reduce your cooling costs as much as 40% — year after year. Your heating costs will also drop.

Based on today's prices, insulating an attic in a typical house runs between $200 and $300. And what better place to invest your money than in your own home?

Check with an insulation contractor or dealer today.
Free conservation booklet.
Conserving energy is still vital to our nation. Insulating your attic is one way to help. For many other ways to conserve energy, write for our free booklet, "Conservation," Edison, P.O. Box 800, Rosemead, CA 91770.

Legislators need to be educated, says McVittie

Many legislators need to be educated on the capitalistic economic system because they don't understand that taxing business produces higher consumer prices, according to Bill McVittie, who is running for reelection in the 65th Assembly District.

McVittie, in a recent talk to the Montclair Chamber of Commerce, said some legislators who don't understand the system of capital and return favor raising taxes on "impersonal, rich corporations."

They don't understand that businesses "pass on the additional costs to consumers," he commented.

The democratic system of government is stable but inefficient, McVittie said and added, "We need a rich economic system to support democracy, and land is the basis of that economic system."

McVittie said he opposes proposed agricultural and coastal lands bill which would restrict development.

Land use should be controlled and regulated at the local level, he said and added that proposed laws restricting private development are "in effect, condemnation by the state, which will have to pay fair market value."

McVittie said the bills provide a benefit to residents, but noted citizens will have to pay for the benefits.

Clyde Stephens urges property tax reform

Clyde R. Stephens, Republican nominee for the 65th Assembly District, recently spoke out on property tax reform.

"Homeowners throughout the district have recently received notices of greatly increased home assessments, which means a corresponding increase in property taxes will follow," Stephens said.

"Every homeowner will feel the strain of meeting these increased taxes, but people on the lower end of the economic ladder will be particularly hard hit. Many may even be faced with losing their homes, especially those on a fixed income."

"Young families are finding it more and more difficult to qualify for a home of their own." Stephens continued. "Property tax reform is desperately needed but just before adjournment for summer recess, Democratic legislators killed four property tax reform measures which were introduced by Republicans.

"Property tax initiative proposals are now being considered by irate taxpayers, but such measures should not be necessary. When initiatives by the people are necessary it means their elected representatives are not doing a good job," he said.

"Too much of the total tax load is being placed onthe backs of the homeowners. More needs to be done to equalize this burden, and when I am elected I will work to correct this inequality in every way possible."

Lloyd campaign cochairmen named

Two former Democratic congressmen have been named as cochairmen of the reelection campaign of Congressman Jim Lloyd, D-35th Dist.

Jerry Voorhis of Claremont, who was in Congress from 1937 to 1947 and George Kasem of West Covina, who was a congressman from 1959 to 1961 serve as honorary cochairmen of the Lloyd campaign.

Lloyd has also won the endorsement of Pomona businessman Roy O. Day, long active in Republican politics but who said, "I am justified in crossing party lines and supporting a man who has an excellent background of public-related experience and has done his job during his first term in a turbulent Congress."

Tingling, Numbness In Hands Will Return Again & Again

By Dr. Wes Helzer, D.C.

Dear Doctor: I am suffering from what I understand to be a "neuromedian disturbance" I say I "understand" but I don't!

First my hands started "going to sleep." Then I lose strength in one hand. I've been told that I can try surgery to relieve the pressure.

Dr. Wes Helzer D.C.

The writer of the above inquiry, was referring to the median nerve which passes through a sheath in the wrist or carpal area.

Pressure on the nerve there can cause what is called the "carpal tunnel syndrome—tingling, numbness, loss of strength in the fingers.

And, it is one of those "sure as the sun will rise" problems.

What I mean frankly, is that this is a problem that is going to keep returning, and with greater intensity, just as sure as the sun rises, if no effective treatment is obtained.

There are many contributing causes to the "carpal tunnel syndrome" ranging from low thyroid to menopause.

By far the most common cause is injury or excessive strain. And just as leaves of an injured branch will wither, so too will a hand lose its usefulness if the problem goes unsolved.

There are many short range treatments for the tingling and numbness but all are something of a "bandaid" approach to the problem. Such short-haul solutions as hydrocortisone injections or hormone therapy seldom prevent that evential reoccurence that will come "as sure as the sun rises."

Simply trying to reduce or prevent the tingling and numbness is not a solution. Nor is immobilization a desirable goal. The only proper goal is restoration of use.

I'm not going to comment on the advisability of surgery for this condition, except to say that chiropractic has proven ever so effective in unlocking nerve pressure and restoring vital nerve flow.

I urge anyone who has this condition or notices occasionally tingling in the fingers or numbness or a hand that frequently goes to sleep, to look into it and seek proper and effective care as quick as they can.

(Note: Dr. Helzer maintains chiropractic offices at 108 East H Street, Ontario, telephone: 983-1711). (C) ARS 1974.

Volunteers needed to help with shots

Volunteers for medical and non-medical tasks are needed to help administer swine flu shots to thousands of West End residents this fall.

Many volunteers are needed since only nine cents per shot is available though the shots would cost 59 cents each with an all paid staff, said Dr. David Ten Eyck, county disease control chief.

He said local preparations must be made now despite recently reported delays in vaccine supply and production.

There will be a one day state training session in use of an immunization "gun" which will probably be used in Ontario.

And there will be many other tasks to be done since each mass community clinic will require as many as 24 volunteers, Dr. Ten Eyck said.

Persons who are interested in volunteering may obtain further information from Kit Harder at the Red Cross West End Service Center, phone 986-6551.

INTO THE STRETCH — Laurie Roberts, 21, Citrus College student, takes her "steed" into the stretch in run for crown as queen of the Los Angeles County Fair while Teri Pepping, 21, Azusa Pacific College, reaches for the brass ring. They are vying with three other area college students for the coveted title, winner of which will be announced Sept. 17, opening night of 17-day fair.

'Tom Sawyer' opens Saturday

Mark Twain's unforgettable character "Tom Sawyer" is coming to the Claremont Playhouse to once again delight the hearts of young and old. This classic will be presented on two consecutive weekends — Aug. 7, 8 and Aug. 14, 15.

The show, under the direction of Beverly Bishop from the Jester's Theatrical Society, Pasadena, tells of the adventures of a mischievous boy and his friends taking place around the turn of the century. Some of the fun-filled moments include Tom cleverly getting out of whitewashing the fence for Aunt Polly; getting lost with his friends on a deserted island; and saving the day for the town's favorite character Muff Potter.

Barry Patts, 12, of Altadena, portrays the incredible Tom Sawyer. Barry has appeared in several other shows including "Treasure Island" and "Beauty."

Garret Duran is Hucleberry Finn, Tom's friend and cohort. Garrett has appeared in many television commercials. Linda McMillan as Becky Thatcher, Tom's girl friend, is an accomplished young actress recently appearing in "The Sound of Music" and "Beauty."

Maurice Jackson plays the role of Joe Harper. Maurice has done television work and appeared in "Finian's Rainbow." Christopher Voor plays Alfred Temple, the town's smart boy. Chris also appeared in the "Soutn of Music."

The villain Injun Joe is bieng done by Tom Holmberg, a drama graduate from the University of California. He appeared in films and plays including "The Skin of our Teeth" and "Waiting for Godot." The schoolmaster is Jim Harnagel, a graduate of the American Academy for the Dramatic Arts.

Larry Hannify, the sheriff, is a graduate of the American Academy of Dramatic Arts in Pasadena. He recently appeared with the International Compnay of San Diego in "Brigadoon" and the "Man of La Mancha." Larry just finished filming "Sports Killers" to be released this fall.

The Preacher, Harold Bown, is currently appearing in "Guys and Dolls" at the Jester's, Pasadena.

Others i the cast are Patricia Patts, Donnie Patts, Scott Lamb, Jack Marlando, Pam Steffey, Joanne Ivey, Sandra Ivey, Cameron Totten, Bill Shetley, David Mackenzie, Barbara McMillian and Andrea Totten.

Performances are at 2 p.m. for the four days. Call the theater for reservations, (714) 621-5005.

Entries close Tuesday for pie contest

Lemon Pie is rated one of America's favorite foods — and the annual "My Favorite Lemon Pie" contest at the Los Angeles County Fair will give amateur bakers an opportunity to win recognition for their skills.

Entries close Tuesday for the contest which will be held Sept. 29. Each pie will be judged for taste and appetite appeal with separate cash awards for each. One pie can possibly win both areas.

Individual competition is divided into two groups, juniors (under 18) and seniors.

Entry blanks may be obtained by writing Los Angeles County Fair, P.O. Box 2250, Pomona 91766.

Church News

LaVerne WCTU

La Verne Woman's Christian Temperance Union (WCTU) will meet 2 p.m. Tuesday in Hillcrest Chapel, 2700 Magnolia Ave. Devotions will be given by Carrie Perrault who for 20 years served as administrator of the WCTU Retirement Home for Senior Citizens in Eagle Rock. Music will be provided by Jennie Via and Mrs. Spenser Minnich who will sing "The Lord is My Shepherd."

Ruth Weaver will report on the annual workshop held at the University of Redlands July 19-23. Mrs. Weaver and Susan Shull represented the local group as delegates. Mrs. Weaver is promotion secretary and served for three years as activities director at Hillcrest Homes, La Verne. All interested persons are invited to attend.

Jewish Singles

Pomona Valley Jewish Singles will meet 8 p.m. Monday at the Mutual Savings and Loan Building, 160 W. Foothill Blvd., Upland.

Guest speaker will be Stephen Carman, a member of the Viking flight team at Jet Propulsion Laboratory who has worked for several years on the Mars project helping develop the lander science instruments and cameras. He will present information on the Mars landing and the space program and will answer questions.

Interested people are invited to attend. New members are welcome. For more information call (714) 623-7122, (714) 622-2041 or (714) 593-7073.

Walk for Hungry

The third annual Walk for the Hungry, sponsored by the Pomona Valley Council of Churches, will be held 1 p.m. Oct. 24, beginning from the Damien High School Athletic Field, 1124 Bonita Ave., La Verne. Funds raised by the walk will be given to various ecumenical and denominational church agencies for distribution to both hungry people and food development projects.

Walks held in 1974 and 1975 each raised over $40,000 and involved more than 2,000 persons. The earlier walks were over routes in Claremont-Pomona and Upland-Ontario. This year's walk will wind through the neighborhoods of La Verne and San Dimas. Walk chairman is the Rev. Ralph Lightbody, pastor of the First Baptist Church of Ontario. Working with him are church leaders from throughout the Pomona Valley. Local residents are urged to plan to participate in the walk either as a walker or a sponsor. For more information call the council.

Church of Brethren

The Rev. Leland Wilson, minister of the La Verne Church of the Brethren, will speak on the theme: "Witnesses" 10 a.m. Sunday at the church, 2425 E St., La Verne. Anita Page, a sophomore at La Verne College, currently serving the church this summer, will assist as worship leader.

Valley Drive-In

Dr. Vincent Bennett, well known Bible teacher and lecturer, will bring the morning message 8:30 a.m. and 11 a.m. Sunday at the Valley Community Drive-In Church, Lone Hill Avenue and Covina Boulevard, San Dimas. His sermon title is "Living Epistles."

From a wide background of study and teaching at such places as Azusa Pacific College and Wheaton College, as well as his years as member of the Billy Graham team, Dr. Bennett is able to share his insights into the meaning of the Bible in an easy-to-understand way. The adult classes which he teaches 9:30 a.m. Sundays and Thursday evenings beginning in September, are among the most popular classes in the church.

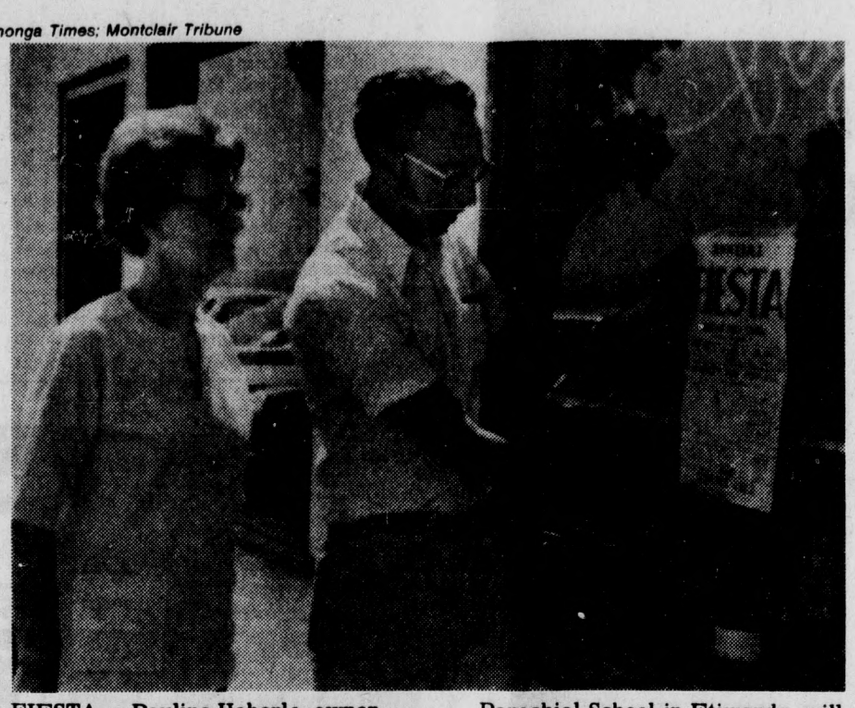
Another of the Moody Science films will be shown in the drive-in only 8:15 p.m. Sunday. "Empty Cities" explores and examines the amazing achievements of the Mayan and Incan cultures of Mexico and Central America in such areas as medicine, mathematics, engineering, architecture and astronomy. The public is invited. There is no admission price although a freewill offering will be received during the program.

(Continued on back page)

SD Methodist

The Rev. Dr. Ed Burn, pastor of San Dimas United Methodist Church, will lead his last worship service for the summer 10:30 a.m. Sunday at the church, 114 W. Second St. His sermon topic will be "The Significance of the Family."

Adult Bible discussion classes will continue to begin at 9:30 a.m. Nursery-kindergarten care is 9:30-11:30 a.m. Regular Sunday school for children and teenagers will not resume until Sept. 12.



FIESTA — Pauline Heberle, owner of Pauline's Beauty Shop in Fontana, and Larry Bishop tape a sign advertising an upcoming fiesta in Etiwanda. The fiesta, to earn funds for the Anton Martin Slomsek Parochial School in Etiwanda, will be held Aug. 20-22 at Sacred Heart Church, 12704 Foothill Blvd., Etiwanda. It will feature entertainment, carnival rides and games and international foods.

ACP gives top awards to Adventist magazines

Two magazines published by the Seventh-day Adventist Church have been given prizes by the Associate Church Press (ACP). "These Times" and "Liberty" are the recipients, according to Marie Toenniessen, communications secretary of the Covina Adventist Church, which serves Walnut, San Dimas and La Verne.

The ACP is the most inclusive religious press association in North America, Mrs. Toenniessen said. Its 139 member publications have a total circulation of 23 million. The awards were made at the annual convention in Washington, D.C. last month. Eighteen publications were award winners.

"These Times," a general interest evangelistic magazine edited by Kenneth J. Holland, received an award of merit for general excellence, the highest honor given a publication of the ACP. The winning entry was the August 1975 issue which presented, in the judges' words, "a series of discussions of significant problems such as the current fascination with demons, the matter of life, death and judgement, the pressures of modern marriages, and how to prevent heart attack." The magazine also won an award of merit for its February 1975 issue on alcoholism.

"Liberty," a magazine of religious freedom edited by Roland R. Hegstad, received an award of merit in the feature category for its March - April 1975 report entitled "Ulster's Children." The judges called the article a "gripping and horrifying story by A. F. Gonzales that describes what the Irish war is doing to the children of that country."

Persons interested in receiving either of these magazines should call Mrs. Toenniessen, (714) 593-1889.

Rev. Douglas Alexander

African missionary to speak Wednesday

The Rev. Douglas R. Alexander, missionary to Mozambique, Southern Africa will speak 7 p.m. Wednesday at the First Church of the Nazarene, 120 W. Ninth St., Upland.

Rev. and Mrs. Alexander are on their third furlough in 18 years of service on the mission field. Rev. Alexander has served as lecturer in the Nazarene Bible Training College in Swaziland, head of the evangelistic program in the Eastern Transvaal, literature secretary and manager of sales in the Nazarene Publishing House of South Africa, and director of literature development and production in Mozambique.

In recent years he served on the Tsonga Bible Translation Committee with the Bible Society of South Africa, contributing to the translation and publication of the Tsonga New Testament under the title of "The Good Needs."

The New Testament was first translated and printed in 1894. A second translation was produced in 1907 and a third in 1929. "The Good News," published for the fourth time in 80 years, is now offered in contemporary Tsonga to all the Tsonga-Shangaan speaking peoples in the sub-continent of Africa. This language group of approximately three million, is found primarily in the southern districts of Mozambique and also Rhodesia and the Republic of South Africa.

Much of the efforts of Mr. and Mrs. Alexander in the past few years, has been in the development of indigenous congregations. Their work has centered in the mobilization of the laity in evangelizing their own people. This has been implemented through the "Christ For All" evangelistic program, developed and produced in southern Mozambique.

Health Tips

Traveling abroad?

EDITOR'S NOTE: Health Tips is a column of the California Medical Education and Research Foundation, prepared and edited by physician members of the California Medical Association. It is reprinted by this newspaper as a public service.

A trip to another country can be exciting and enjoyable, but it can also be miserable if you become ill while traveling. Many of the hazards to your health can be avoided if the following precautions are kept in mind.

Your local health department can give you information about immunizations required for the places you plan to visit. These immunizations should be given by your family doctor well in advance of your trip. Vaccinations for smallpox may be required by some countries and immunizations for cholera, typhus and yellow fever may be needed. You should also make sure that your polio and tetanus - diphtheria (DT) booster immunizations are still effective. Ask your doctor for a prescription for anti-malaria pills if there is a risk of this disease in a country you plan to visit.

Have an adequate supply of any medication you take regularly, especially prescription drugs, and carry a note from your doctor stating the need for such medication. It is important to have your prescriptions filled before you leave since some drugs have different trade names in other countries. If you suffer from a chronic illness, such as diabetes, you should carry an identification card or tag which will inform others of the condition in case of an emergency. If you would like a list of English-speaking physicians in countries you plan to visit, a worldwide directory is available from the International Association for Medical Assistance to Travelers, 350 Fifth Ave., New York., N.Y. 10001.

If your wear glasses or contact lenses, take along a copy of your prescription in case they are lost or broken.

Travel by airplane can disrupt the natural functioning of your body, especially your eating and sleeping habits. In general, you should eat when you are hungry — even if it is 3 a.m. Allow your body to adjust gradually to time changes. Some airplane travelers feel very tired when they arrive at their destination. This "jet lag" is caused by travel through different time zones. To avoid "jet lag" it may be helpful to do the following: For flights eastward, stay up late for three nights before you leave; for flights westward, go to bed early for three nights before you leave. Sleep on the airplane, if possible, and try to take a nap as soon as you arrive at your destination.

Let common sense guide you in your travels. Wear clothing appropriate for the climate of the places you visit. Do your sightseeing in comfortable walking shoes and try not to crowd too much into each day. In order to stay healthy, your sleeping and eating habits should be as normal as possible. Avoid excessive use of alcohol and tobacco.

Food and water may be safe in the better hotels and restaurants, but even there upsets may occur unless you are selective about your eating and drinking. It is a good policy to eat only foods that are cooked and served hot. Avoid cold foods, salads and raw fruits and vegetables unless care is used in washing them first with treated water.

Bottled water should be used for drinking, brushing teeth and preparation of all beverages served cold. Water can be made safe by boiling it briefly or by use of chemical disinfectants recommended by your doctor or pharmacist. Avoid the use of ice in drinks — it may have been made from contaminated water, and there is not enough alcohol in mixed drinks to kill the bacteria.

With some planning and good common sense, your trip should be a pleasurable one.

Everyone can have charisma

You can have charisma — everybody can.

"If you're really turned on and tuned in to people, if you send out friendly energy others will be drawn to it — that's charisma," explains actress and teacher Toe Lang in the August Seventeen. "Charisma begins with the way you feel, not the way you look," she says.

To be charismatic when making a speech, you must learn to release the tension — stage fright — that prevents you from radiating friendly energy. Here's how to do it:

1. Be spontaneous. You want to make it look easy. Write out the first and last paragraphs on index cards and know them cold. Jot down all the points to be covered on a separate card. Rehearse aloud. When up there, imagine you're just talking to your best friend.
2. Stay cool. While waiting to be called, take deep breaths.
3. Be comfortable. Find the position in which you are most relaxed.
4. Take your time. Pause between sentences — not with "ers" and "ums" but with silence. Say two sentences and make your listeners wait for the third.
5. Get control. Fidgeting makes you seem unsure of yourself — and that's not magnetic. If the tension's mounting, start breathing deeply. If your audience seems restless, pour more enthusiasm into your voice. People respond to the feelings you transmit.
6. Be friendly. If someone criticizes you and has a good point, admit it. If you're unjustly attacked, answer calmly and confidently.

1. Driving a station wagon with the rear window down can be dangerous?
   ☐ True ☐ False
2. For safety, a motor boat towing a water skier should carry the following number of persons.
   A. One
   B. Two
   C. Three or more.

ANSWERS

1. TRUE. Exhaust fumes tend to be drawn into an open rear window of a moving vehicle. Rapid carbon monoxide poisoning may then occur.
2. B. Two persons should always be on board, one to operate the boat and a second to observe and assist the skier. Avoid a crowded boat, which slows down the skier and tends to divert the driver's attention from the business at hand.

Urinary tract blockage painful

By Robert L. Stear, D.V.M.
Manager of Veterinary Services
Norden Laboratories

Cats are remarkably hardy animals that never complain unless they are in great pain. For this reason, it is often difficult to detect oncoming problems.

One potentially serious feline condition — affecting male cats in particular — is blockage of the urinary tract, which makes urination painful and difficult.

The signs of discomfort due to urinary blockage are fairly typical. The cat may make frequent trips to the litterbox, often the first clue that an irritation is present. Being alert to this symptom could save your cat from undue suffering. If the condition progresses, your cat will stand in the litterbox for several minutes at a time straining to urinate, and what little urine passes may be bloody.

The causes of urinary blockage are varied. Undissolved material may have accumulated in the bladder outlet, so that the cat is unable to pass its urine. Or stones, sometimes quite large, may have collected in the urinary tract to obstruct the normal flow of urine. Some scientists researching the problem believe a virus infection may cause stone formations.

If the obstruction goes untreated and passage becomes impossible, your cat could develop uremic poisoning, which means the body's toxic waste products will accumulate in its bloodstream.

If attended to quickly, however, this condition can be corrected. Your veterinarian can prescribe effective treatment, including antibiotics to control the infection. In some cases, surgery may be necessary to eliminate the stones or to reroute the tube and bypass the obstruction.

A long period of treatment may be required. Once the blockage is cleared, your veterinarian may also suggest changes in your cat's diet. Perhaps lightly salting of food will cause your cat to drink more water and help to prevent further problems.

Remember, it is important for you to be aware of the signs associated with urinary blockage and to get your pet to a veterinarian promptly. Knowing the symptoms and seeking professional treatment could lengthen and even save your cat's life.

ASSESSMENT INFORMATION — Use this map of the territory included in today's publication of **Notice to Assessees** to determine in which numbered map book area your property is located. Any questions may be referred to the appropriate Assessor's Regional Office. A complete list of regional office addresses and telephone numbers is included in the **Notice to Assessees.**

All of the 10 map books which make up this newspaper's publication territory are in Assessor's Region 6.

NOTICE TO ASSESSEES

In keeping with his policy of full disclosure of assessment information the Assessor of Los Angeles County, with the approval of the Board of Supervisors, has instituted newspaper publication of assessments as provided in Section 621 of the California Revenue and Taxation Code.

All real property assessments are published in one fifth of the County, (the area designated this year as "Full Publication Area Three"). All value changes in real property assessments in the remaining four fifths of the County are published as "Changes Only."

Parcels are identified by map book, page and parcel number. Where street and street numbers are available, the property is so listed; otherwise assessee's name of record is used.

An assessee, by checking his last year's tax bill, will in most instances be able to identify his map book, page and parcel designation. In the absence of a tax bill, a particular parcel can be found by locating the appropriate area on the map published elsewhere in this newspaper.

Any parcel within Publication Area Three will be listed, whether or not there has been a valuation change. Any parcel outside Publication Area Three, not listed under "Changes Only," had no value change from 1975.

An "H" or "V" following the parcel number indicates, respectively, a homeowner or veteran exemption has been allowed; an asterisk "*" indicates both exemptions have been allowed on the parcel.

The market value of each parcel is also listed. If the assessee disagrees with this valuation, he is urged to contact his regional office for an explanation of the appraisal, or for any other information regarding his assessment, or assessments in general.

ORDINANCE NUMBER 425
AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF MONTCLAIR AMENDING SECTION 9-4.701 OF ARTICLE 7 OF CHAPTER 4 OF TITLE 9 OF THE MONTCLAIR MUNICIPAL CODE RELATING TO SINGLE FAMILY RESIDENTIAL ZONES (R-1)

The City Council of the City of Montclair does ordain as follows:

SECTION 1. AMENDMENT TO CODE. Section 9-4.701. R-1 Single Family Residential Zones.

The R-1 Single Family Residential Zone is intended as a district of single-family homes with not more than one dwelling and customary accessory building upon one lot. Except as specifically provided elsewhere in this chapter, any and every building and premises or land in the R-1 Zone shall be used for, or occupied, and every building shall be erected, constructed, established, altered, enlarged, maintained and moved into or within such R-1 Zones exclusively and only in accordance with the provisions set forth in this article.

Section 9-4.702 Uses Permitted.

The following uses shall be permitted in the R-1 Zone:

(a) One single-family dwelling of a permanent character placed in a permanent location;

(b) Orchards, tree crops, field crops, truck gardening, berry and bush crops, flower gardening, nurseries, greenhouses or lath houses not exceeding 200 square feet in the area on any lot, and other similar enterprises carried on in the general field of agriculture provided there are not retail sales from the premises;

(c) The keeping of animal pets for noncommercial purposes as follows:

(1) Not more than two (2) weaned dogs;

(2) Not more than two (2) weaned cats;

(3) Not more than four (4), or a combination of not more than four (4), domestic adult rabbits, guinea pigs, or chickens, and their immature offspring, provided such animals shall not be kept in violation of the provisions of Chapters 1 and 3 of Title 6 of this Code;

(4) Canaries, parrots, and other kindred birds usually or ordinarily kept as household pets; and

(5) Such other animals as the Commission may permit pursuant to a revocable special permit after a recommendation by the Health Officer that the keeping of such animals will not be detrimental to the health, safety, and welfare of the abutting property owners; provided however, the Director of the Department of Community Development may grant an administrative adjustment pursuant to the provisions of subsection (2) of subsection (e) of Section 9-4.1909 of Article 19 of this chapter;

(d) Parks, playgrounds, a civic center and community buildings owned and controlled by any public agency;

(e) Churches, nonprofit libraries, museums, elementary, junior high and high schools offering full curricula as required by State laws, colleges listed as institutions of higher learning by the United States Office of Education and homes for the aged or for children as may be permitted after a public hearing in each case pursuant to a conditional use permit in accordance with the provisions of Article 19 of this chapter;

(f) The renting of rooms to not more than one (1) roomer and/or the providing of table board to not more than one (1) boarder in addition to members of the family occupying a one-family residence;

(g) Home occupations (for which a home occupation permit has been issued);

(h) Accessory buildings and uses customarily incidental to any of the above uses including private garages, private recreation facilities, and servants' quarters, provided no kitchens or kitchen facilities shall be included in any such accessory building;

(i) Nameplates and signs as provided in Section 9-4.1810 of Article 18 of this chapter;

(j) Planned residential developments subject to conditional use permits pursuant to the provisions of Article 20 of this chapter and only in accordance with the property development standards set forth in Section 9-4.2004 of Article 20 of this chapter and the General Plan of the city; and

(k) Children's day care facilities, day nurseries, and nursery schools in accordance with the provisions and requirements of Section 9-4.1816 of Article 18 of this chapter.

Section 9-4.703. Property Development Standards (R-1)

The following property development standards shall apply to all land buildings in th R-1 Zone; provided, however, where a lot has a width, depth, or area less than that required by the provisions of this chapter and was held under separate ownership or was of official City record prior to December 21, 1972, such lot may be occupied by any use permitted in the R-1 Zone after a public hearing pursuant to a conditional

Water shortage affects use of state parks

SACRAMENTO — Water shortages and high fire danger caused by this year's drought so far have affected services to the public at less than 20 of the more than 200 units of the state park system, State Parks and Recreation Director Herbert Rhodes said today.

"Water is in short supply in a number of coastal areas, however," Rhodes said, "and we are taking measures to reduce water use while maintaining normal water services wherever possible."

Water is no longer available at the Redwood Lake Campground in Austin Creek State Recreation Area in Sonoma County and at Stinson State Beach in Marin County. Restrooms have been closed and chemical toilets installed at Stinson State Beach and at Tomales Bay State Park, also in Marin County.

Sugarloaf Ridge State Park again has a water supply after several days of "dry camping."

At Portola State Park in San Mateo County, restrooms and showers were closed and chemical toilets were installed Monday. Also at Portola, spring-loaded faucets have been installed in public use areas, fire hydrants will no longer be routinely flushed and testing will be kept to a minimum. Spring-loaded faucets are being installed at El Capitan and Refugio State Beaches and Gaviota State Park, all in Santa Barbara County.

Campgrounds at Portola and Butano State Parks in San Mateo County and at Samuel P. Taylor State Park in Marin County have been removed from the statewide reservation system this summer so that, if the water supply has to be cut off, they can be closed without denying use to campers who have already paid their fees. However, the parks will honor reservations that have been already made. Other state park units may be removed from the campground reservation system before the summer is over.

Other water conservation measures have been put into effect at all units of the state park system. Landscape watering has been reduced to the minimum needed to keep plants alive, and extra water conservation patrols are checking for leaks and water waste, with first priority on repairing of leaks.

Fire danger so far has forced the closing of only one state park and portions of four other state parks.

Closed to all public use is Henry W. Coe State Park in Santa Clara County. Portions are closed but no campgrounds are affected at Montana de Oro State Park in San Luis Obispo County, and Andrew Molera, Julia Pfeiffer Burns, and Pfeiffer-Big Sur State Parks, all in Monterey County. Mount Diablo State Park in Contra Costa County and portions of Mount Tamalpais State Park in Marin County are subject to closure during periods of high fire danger.

In Fremont Peak State Park and Hollister Hills off-highway vehicle area, both in San Benito County, no fires are allowed except in approved portable camp stoves and smoking is restricted to certain designated areas. Motor vehicle travel in Hollister Hills is restricted to established roads.

Smoking is not allowed on trails in McArthur-Burney Falls State Park in Shasta County.

Declining water levels have left more boat ramps above the water line this week at two Northern California lakes.

Main dish treats

Summer calls for good salads

Main dish salads are truly "fair weather friends" since fruits and vegetables are at their freshest and in such bountiful supply. Even sun parched appetites awaken heartily to a cool and crunchy salad main dish.

Two new recipes from the test kitchens in Rochester, N.Y., offer two exciting variations on the summer salad theme.

Fancy Fruit Salad is a sher-bet for a summer's day luncheon. Start with your favorite combination of fruits then add a special homemade dressing. An easily stirred together mixture of prepared yellow mustard, lemon sherbet and miniature marshmallows creates a fluffy golden topping to crown your fresh fruits.

Summer Salad Plate is a hearty chef-type salad of crisp greens and cold meat. The zesty dressing is a creamy combination of prepared yellow mustard and cheddar cheese that stirs together more quickly than you can yell, "everybody out of the pool!"

Serve either salad with hot rolls, iced tea or coffee, and frosted cake for a light and relaxing summer luncheon or supper.

Fancy Fruit Salad

1 cup (½ pint) lemon sherbet
¼ cup prepared yellow mustard
½ cup miniature marshmallows
4 to 6 cups cut up fresh or canned fruit
Slivered almonds, if desired

Let sherbet soften at room temperature. Add mustard; stir briskly with a fork until smooth. Stir in marshmallows. Serve over fruit and sprinkle with almonds. Makes 1½ cups dressing, enough for 6 to 8 servings.

Summer Salad Plate With Golden Cream Dressing

½ cup dairy sour cream
¼ cup prepared yellow mustard
¼ cup mayonnaise
¼ cup half-and-half cream
¼ cup shredded cheddar cheese
¼ teaspoon salt
Salad greens
Strips of roast beef or ham
Wedges of tomato and hard-cooked eggs

Prepare dressing by stirring together sour cream, mustard, mayonnaise, cream, cheese, and salt. For each serving, arrange salad greens on plate and top with meat, tomato, and eggs. Serve with dressing. Makes 1½ cups dressing, enough for 6 servings.

Fancy Fruit Salad is a sher-bet for a summer's day luncheon. Served with strips of roast beef or ham — or even a hot dog, this salad is certain to perk up the gang's interest in something great. The dressing can be a whole new adventure by suing sour cream and cheddar cheese. Add some slivered almonds to the fruit — my, my but it is good.

Fresh asparagus

Great gift from nature

Swingin' into summer with one of nature's gifts, fresh - from - the - garden - asparagus. It is Mother Earth's delicious announcement that growing time is starting again in most parts of the country.

Most diners are ready for something dramatically different this time of year. Despite our fantastic year long supply of processed foods, there's nothing like fresh - from - the - garden flavor to tantalize taste buds. And the wise cook will have on hand a generous supply of plastic film to seal in that fresh flavor.

Make fresh asparagus the star of your meal. Serve tender spears of asparagus on a thin slice of ham, the vegetable dressed only sparingly with butter, salt and pepper. Avoid masking the true flavor with a heavy sauce.

Or cook the asparagus until barely tender, then chill in a light vinaigrette sauce for an elegant accompaniment to poultry, or fish.

Or make a casserole layering sliced hard - cooked eggs, cubes of ham, a rich white sauce and fresh cooked asparagus.

Or follow the Chinese method, cutting the tender spears into 1-inch lengths and simmering about three cups of the vegetable in three tablespoons butter and two tablespoons water for two to three minutes, stirring occasionally. Dress with browned almonds or seasoned bread crumbs.

The secret to serving superb asparagus starts in the market. But only green, brittle stalks with tips tightly closed — not wilted, old, tough or woody stalks.

Here's a tuna-rice loaf which is perfect when having guests. You can clean out the refrigerator of all leftovers, combine with rice and other good flavorings to come up with this delicious main dish. Makes great loaf to potluck parties, too.

Guests like tuna-rice loaf

Expecting guests or going to a family pitch-in? A simple-to-make tuna-rice loaf makes a good dish which you can prepare in advance.

Always refrigerate or keep pitch-in leftovers in an ice chest during hot days to avoid any spoilage that might cause illness.

A favorite beverage for summer months is iced tea and some devotees drink iced tea throughout the year. For those who always like to have this refresher on hand you can have a pitcher of tea brewing overnight the cold water way or make it quickly with boiling water.

The latter requires more ice to cool it. Whatever the method, enjoy it with a slice of lemon or lime.

TUNA-RICE LOAF

2 eggs
1 teaspoon salt
⅛ teaspoon pepper
¼ teaspoon celery seed
½ teaspoon curry powder
1 tablespoon lemon juice
¼ cup sweet pickle relish
1/3 cup ketchup
2 tablespoons minced onion
2 (6½ or 7 ounces each) cans tuna, drained and flaked
3 cups cooked rice

In large bowl, mix with fork all ingredients except tuna and rice. Blend thoroughly before stirring in tuna and rice. Turn into well buttered 8 x 4-inch loaf pan. Bake in preheated 350-degree oven until lightly browned, 50 to 60 minutes. Serve hot or cold with *Dill-Horseradish Sauce. Makes 6 to 8 servings.

*Dill-Horseradish Sauce: Combine 1 cup mayonnaise, 1 cup sour cream, 2 tablespoons horseradish, 1 teaspoon dill weed and 2 teaspoons lemon juice.

Iced Tea

Cold Water Way: Fill a glass quart container or pitcher with cold water. Add 8 to 10 teabags (remove tags) Cover and let stand at room temperature or in the refrigerator at least 6 hours or overnight. Remove teabag, squeezing against side of container. Makes 1 quart. Recipe may be doubled.

Boiling Water Way: Bring 1 quart of cold water to a boil in a saucepan. Remove from heat and immediately add 15 teabags or one-third cup loose tea. Stir, cover and let stand 5 minutes. Stir again and strain into a pitcher containing another quart of cold water. Makes 2 quarts.

Instant Way: Allow 2 rounded tablespoons of instant tea powder for each quart of cold water. Stir to dissolve. If using lemon-flavored iced tea mix, allow 2 envelopes (or one-half cup) mix to each quarter of cold water.

Use papaya

The electric blender and Hawaiian papaya make delicious, refreshing spoon drinks in minutes. For starters, try these two exotic, nourishing drinks:

— Chop one peeled and seeded papaya and one peeled banana into the blender container; add ¼ cup lemon juice and puree. Pour into two glasses and freeze an hour or so until mushy. Garnish with a fresh strawberry, pineapple spear or sprinkling of nutmeg.

— Peel and seed one papaya; chop into the blender container. Add one cup plain yogurt or ice cream and 3 tablespoons honey; puree until smooth. Pour into two mugs and top with a nutty granola.

Slipping into daily lives

Don't be afraid of metrics

Metrics — Many of us hear the word and shudder. And, why not...we all tend to be a little afraid of things we don't understand, and for most Americans, the metric system falls into that misunderstood category. Hope economists advise that we really don't have a good reason to be frightened.

Metric is just another way to weigh and measure amounts...only in a more precise and easily understood manner by simply using multiples of 10. In fact, we use it every day in dealing with money — pennies, dimes, dollars and 10 dollar bills. In visualizing it this way, pennies represent millimeters (mm), dimes are centimeters(cm), dollars are decimeters (dm), and 10s are meters (m).

The metric system has already slipped into our daily lives without many of us noticing it. Prescription drugs and pharmaceuticals are prime examples that carry the cc marking, meaning dubic cubic centimeters and representing volume. Vitamin labels break down their contents for us in milligrams (mg); film for home movies comes in a variety of millimeters (mm); and of course, energy- conscious Americans are very familiar with the term kilowatt.

Actually, it's not necessary to learn the complete metric system in order to use it in everyday life. Those who are not engaged in scientific or technical work can go through life quite happily with the meter, centimeter, millimeter and kilometer for length; the gram and kilogram for weight; and the liter and milliliter for volume.

But, for the average homemaker concerned about shopping, cooking, sewing, and everything else involved in running her home — what will a change to metric measurements mean? Well, the move toward metric has already touched our kitchens; look at the packaged foods in the pantry and on the grocery shelves. Most are already using dual measurements...listing the contents in metric as well as customary units. Some soft drinks are now available in liter bottles. And you'll probably notice when you go shopping for a new measuring cup that it, too, will carry metric measurements along with the customary measurements. Some of the weather forecasters now give us tomorrow's temperatures in both the familiar Fahrenheit and the new Celsius readings. Home economists say that metric cookbooks are appearing on the market. Most sewing patterns and many tape measures are already available using the dual measurements. So, metric measurements are around us everywhere and we'll be seeing even more in the coming years.

Although we won't have to go metric tomorrow, the change is already underway in America. Conversion will be gradual. Customary and metric systems will exist side by side until the late 1980's, so we'll have plenty of time to get used to it.

Heart damage

At one time, syphilis and diptheria caused heart damage. Now, heardly anyone gets diptheria and if syphilis is promptly treated, the heart won't be damaged at all, states the American Heart Association.

Christian school

The First Southern Baptist Church of Cucamonga, 7450 Archibald Ave., announces the establishment of Cucamonga Christian Schools with classes beginning in September.

According to a church spokesman the school will include kindergarten through eighth grade. In investigating potential programs the church settled on a new program of learning based on a Biblical philosophy, individually prescribed self - instructional curriculum, and an advanced system of motivated learning, he said. This educational program available from Accelerated Christian Education Inc. is designed so that it will not be a financial burden on the church. It will provide character training for the students in keeping with Biblical principles and bring secular learning back into a Biblical God centered atmosphere, as it was prior to 1900.

"The church is excited about the opportunity to serve the community in establishing a Christ-centered environment, with dedicated Christian teachers in a spiritual academic atmosphere," he added.

Those who are interested in enrolling their children should call the pastor, Maurice J. Sowell Jr., (714) 987-3676 for more information or an appointment. Only 50 students will be admitted on a first-come basis.

Christian Fellowship

Carolyn Ross of Lakeview Terrace will be guest speaker when the Upland Christian Fellowship bruncheon meeting is held 8:30 p.m. tonight at Griswold's Smorgasbord in Claremont.

Mrs. Ross is the wife of the associate pastor of the Church of the Way, Dick Ross, and the mother to two teen-aged sons. She coordinates the women's ministries for the Church of the Way.

Christ Lutheran

Having returned from a tour of Europe, Dr. A. L. Plueger will spend the next few Sundays sharing some highlights of the trip in connection with a Bible text at Christ Lutheran Church, 5500 Francis Ave., Chino.

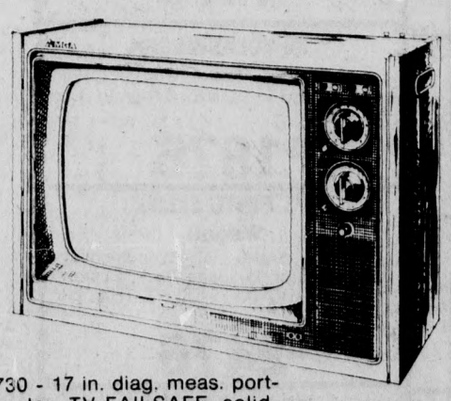
WHY MGA SOLID STATE COLOR TV?

Our 110° Thinside picture tube is thinner than most.

And that contributes to the sharpest, clearest picture possible. Most MGA color TV's feature the 110° "Thinside" picture tube. It takes up less space. And that means most MGA color TV's can fit on a bookshelf. And every MGA color TV must survive a grueling, 48 hour high-voltage "on/off" test before it leaves the factory; while most also have a special FAILSAFE 100% solid-state chassis.
So take an MGA color portable off our shelf, and put it on your shelf. We've got the MGA line at Bill's TV.



CS-1730 - 17 in. diag. meas. portable color TV-FAILSAFE solid-state dependability 100-degree "Thinside" picture tube (only 17" deep), Color Lock, Automatic Fine Tuning.
